Kreativstorm

Re: Frontend Developer - Intern (Remote Internship – IT)

Dear Hiring Manager,

As an experienced Frontend Engineer, the advertisement for a Frontend Developer - Intern with Kreativstorm sparked my interest. When reviewing the position requirements and your organization's website, I was excited to find that my qualifications and personal strengths align with your needs and mission.

I bring a comprehensive set of skills that I believe will be valuable to Kreativstorm. In my Frontend Engineer role, I honed my abilities in Angular and Web design, providing a firm foundation for the Frontend Developer position. My teamwork, people-centric nature, and compassion have afforded me excellent communication skills.

I am excited to contribute my talents and proficiency in problem-solving to your team efforts. As an engaging communicator with a proven track record in web design, my focus on building strong professional relationships has been a beneficial asset throughout my career.

I have been out of the field for a time due to some unexpected circumstances. Everything has been taken care of and I am ready to get back into the workforce. I would be open to elaborating more if you have further questions!

Please review my enclosed resume for a more in-depth illustration of my work history and accomplishments. I would appreciate the opportunity to interview at your earliest convenience. I'm eager to discuss how my personality and background fit the Frontend Developer role.

Thank you for your time and consideration of my candidacy.

Sincerely,
Isha Patel
